

Got You Floored Inc. Checklist for New Flooring in an Occupied Home

We are excited for the opportunity to work with you on your flooring! To ensure that the installation goes as quickly and smoothly as possible, we ask that you follow these guidelines so everyone is prepared on installation day. If you have any questions or concerns, please do not hesitate to let us know.

- We suggest that you are present during the installation.
- Secure all valuables and fragile items by boxing them up or moving them to another room.
- Please move any electronics from the room you are having flooring installed in. Installers do not move or reset any electronics.
- Move any low hanging pictures, mirrors, and wall décor so that is not accidentally bumped/damaged during installation
- Remove all items from the floor that is being replaced, including closets.
- Installation crews will move furniture for an additional fee, but they will not move personal items.
- If we are replacing flooring in kitchen or bathrooms be sure to remove items from the top of your refrigerator and anything that could be knocked off countertops and shelves.
- All pets are to be crated, contained, or supervised by owner. The installers are not responsible for pets being improperly contained.
- Got You Floored Inc. nor our installers are responsible for your personal items.

Thank you for this opportunity to serve you!
